Thank you for your request for a connection to the Marlboro Township Water Utility system. Please take note of the following information.

The Marlboro Township Water Utility Division (MTWUD) received a letter from the New Jersey Department of Environmental Protection (NJDEP) dated November 5, 2015. The letter stated that the NJDEP has reevaluated its long standing methodology for calculating available Water Supply Capacity for the MTWUD. NJDEP concluded in the letter that the MTWUD:

...has a deficit in its monthly and annual allocations....as defined in N.J.A.C. 7:10-11.5(e) et seq. Therefore, this Bureau will not accept any applications for Water Main Extension or connection permits to the existing system which have an associated water demand. In addition, pursuant to N.J.A.C.7:10-11.10(b)4, any connections or extensions to the water system with a water demand which do not need a permit from this Bureau may not be undertaken." The MTWUD quickly responded to the NJDEP letter strongly disagreeing with the reevaluation and deficit determination. While the issue has not been resolved with the NJDEP, they issued a letter dated January 14, 2016 indicating that new projects will be evaluated by the NJDEP on a case by case basis.

In order to be considered by the NJDEP for a water connection approval, the following information must be provided:

- Property location (street, lot/block)
- Property description (single home, commercial, etc.)
- Estimated water demand (gallons per day)

This request will be transmitted to the NJDEP requesting approval of the water connection.

Please note that no connection to the Marlboro Township Water Utility System can be made until approval is received from the NJDEP.

Also note that this NJDEP requirement applies strictly to the Marlboro Township Water Utility system and not to areas served by the Gordons Corner Water Company.

Thank you for your cooperation.
